

Aakii

Aakii is a chorus and vibrato pedal designed to deliver warm modulated tones in a gig-friendly format. The streamlined interface includes independent depth, rate, and mix controls for an optimized and effective modulation experience. From a lush and aquatic chorus to a thick and syrupy vibrato, Aakii provides a range of vintage and modern choral voicings.

Power: 9VDC, 80mA (center negative)

Depth: Controls the depth of the modulation.

Rate: Controls the rate of the modulation.

Switch: Turns the effect on and off.

Latching Operation: Press and release **switch** quickly to toggle the effect on and off.

Momentary Operation: Hold **switch** when effect is off to temporarily turn the effect on and release **switch** to turn the effect off.

Mix: Controls the blend of the modulation between the chorus and vibrato effect.

Dimensions: 2.6" x 4.77" (W x L)

Limited Warranty:
